

How Can I View Data about My Booth's Downloadable Resources?

Resources are the supportive documents or material provided by the sponsors.

You can get the report by login on to Sponsors microsite under sponsor dashboard.

Booth Resources: This report displays resources that have been downloaded from the sponsor booth/s specified in the Sponsors dropdown menu.

How Can I Use This Report?

- If you find that your sponsor booths don't have many resources, you can reach out to your sponsors and request that they consider including some.

A screenshot of the Booth Resource Downloads report interface, enclosed in a red dashed border. The interface shows three sections:

- Booth Resource Downloads (Top Booth Resource Downloads):** This section has a toggle switch for graphical view (currently off) and a Download button. An orange callout box states: "Graphical view displays the top 10 most often downloaded resources".
- Booth Resource Downloads (Resource Downloads Summary):** This section has a search bar, a toggle switch for tabular view (currently on), and a Download button. An orange callout box states: "Tabular view displays the summary for all the booths containing number of resources downloads for every booth".
- Booth Resource Downloads by User:** This section has a search bar and a Download button. An orange callout box states: "Provides user details who has downloaded resources from the visited sponsor booth".
